## LANGUAGE POLICY AND COURSES

Istanbul Kent University has implemented several language learning initiatives since its foundation. We have introduced a General English Program called “**Kentlilere İngilizce**” (English for Members of Kent). It started as an online course and may shape up to be a physical one in the future.

The Program is available in levels through A1-B2. Courses are completely free of charge, and are offered to all students and members of our University. We have also organized an online English learning platform called “**Kent Evde İngilizce**” (Kent English at Home), which consists of a series of short educational videos, from level A1 to level B2, that you may find on the following link: <https://kentevdeakademi.kent.edu.tr/ingilizce.html>.

We encourage our students and members to benefit from every chance they may get in learning English. As for learning other languages such as Turkish, German and French, in-house courses are offered in the **TÖMER** (Language Learning, Research and Application Center).

## OUR ERASMUS POLICY IN A NUTSHELL

We are always looking for partnerships with universities that have compatible program outcomes as ours. Student mobility is our primary target for two main reasons; to make sure our students have every opportunity to enhance themselves as highskilled, global professionals with intercultural capabilities, and to be able to contribute to the highskilled employment demands, scientific innovations, and entrepreneurship of our beloved country and world.

Teaching staff mobility is highly regarded for its international research and networking opportunities. Administrative staff mobility is encouraged greatly as well, in favor of the professional, and intercultural progress of our staff. We, as a university, continuously work hard to achieve and maintain the highest standards in higher education, and to be a valuable partner for our collaborators.
